Prof. DALE'S PERSIAN

Horse and Cattle Powders, DROF. DALE WAS A DISTINGUISHED

Veterinary Surgeon of England, and graduated with the dighest honors in the most celebrated Veterinary School of Europe. After completing his education, he traveld extensively in the East, through Arabia, Persia, and Turgey, those countries where the horse is seen in his highest and most parfect condition, for the purpose of making observations with regard to the management and treatment of horses, on the indicase and in health, by the inhabitants of the original climates of this noble and useful animal. Which in Persia, to was rewarded in his researches by the discovery of the dove valuable compound, which he found the Persians administered in almost all cases of disease of their horses, either done or in conjunction with other remedies. The surprising uccess that attended its administration led him to investigate the principles upon which its great remedial virtues were he principles upon which its great remedial virtues were sunded, and was the means of revolutionizing his whole ideas with regard to the treatment of diseases in horses. Previous y to this time, bleeding and purging, and other depletory means, was the universal custom, both with the scientific fractitioner and the would be "horse-dector."

2. J. SANFORD & GO. Wholesde Agrate.

Dr. M. LYTLE'S ELIXIR, THE GREAT SOUTHERN REMEDY For the safe, speedy and effectual Cure of Diarrhea. Dysentery, Cholera Morbus, Griping Pains attended with severe Purging of the Bowels, General Debility and Prostration of the System. It has long been sold, and has stood the test of time, and

as continually secured new advocates to its mories, possessing highly aromatic, and tonic, as well as the excellent arminative qualities, of several native plants, which, during a serious research, have been so beended, that it has proved by its asionishing efficacy upon the bowels and stomach, to be the safest and best medicine for general me, now known, for all discases of the lowels and stomach. all diseases of the bowels and stomach. E. J. SANFORD & CO.,

But the motte of the present age is ONWARD 1 Old stereo-typed opinions, which have nothing but their autiquity to recommend them, are fast giving way, as their absurdities are which we offer at the le proved by the searching investigations of science. The steam ear, the railroad, the magnetic telegraph, are revolutionizing the earth. And while the human mind has been busy in every department of the Physical Sciences, producing results which have astonished the world, think you that Medicine is the only science which has stood still? Are no wiser than were our fathers? Has the accumulated researches of the nineteenth century thrown no light upon the Practice of Medicine?

We do not say that every single case of Consumption (at an adsumed stoge, and where the patient has a scrofulous constitution) can be saved; but we no say that where the general health of the system is not fatally disordered, and where there is sufficient vital energy left, Communities is as carable as any other to be devoted to the support and maintenance of the Orphans roved by the searching investigations of science. The steam of the system is not fatally disordered, and where there is Washington on the 10th of May next, the proceeds thereof are ufficient vital energy left, Communition is as carable as any other to be devoted to the support and maintenance of the Orphans discuss! Patients occasionally die of Billions Fever, yet we ac-count it a circular discuss, because the majority, if treated right-iy, recover. So we say of Communition. By the timely admin-
